December 7, 2017

In an effort to improve our business climate and ensure public safety, the Charter Township of Bangor has instituted an annual business license ordinance.

The business license will assist the Township in gathering information that will allow us to provide more adequate police and fire protection and ensure more equal and equitable real and personal property taxation. It will allow better efficiency and economy in furnishing the public utility services within the Township. It will also provide a more comprehensive and informed planning and zoning for uses of land and structures within the Township.

The information you provide will allow emergency service personnel the ability to contact you in the event of an emergency. It will also allow us to know key building safety components that will give our first responders an advantage in minimizing loss to your property.

Thank you for your commitment to our Township and for the valuable services you provide to our community.

Glenn Rowley, Supervisor

Dawn Bublitz, Clerk

Karie Wardynski, Treasurer
