

APPROVED

**Charter Township of Bangor
Public Works Committee
March 9, 2016
10:00 a.m.**

PRESENT: Dennis Kula, Karie Wardynski, and Dick Bishop

K. Wardynski called the meeting to order at 10:02 a.m.

Moved by D. Bishop supported by D. Kula to approve the January 15, 2016 committee minutes as presented. Motion carried

A resident had inquired about lights being installed around the curves on Killarney Beach Road. After discussion about the best location for lights for maximum impact for residents in that area, the committee decided to recommend to the Board one light installed at Bangor's expense around the North West curve. K. Wardynski will follow up with Consumers Energy for a quote.

Other business discussed was a meeting with Erich from Wade-Trim on March 21, 2016, to discuss our project list. Erich will bring in proposals to that meeting. D. Kula mentioned the necessity of special assessment districts for projects too costly for the Township. D. Bishop recommended that bids should come from Road Commission and private contractors. D. Kula gave a brief overview of some of the projects Wade-Trim will be bringing to the next meeting.

Being no further business, the Public Works Committee Meeting adjourned at 10:20 a.m.
