

APPROVED

**Charter Township of Bangor
Public Works Committee
September 3, 2015
8:15 a.m.**

PRESENT: Dennis Kula, Karie Wardynski, and Dick Bishop

ALSO PRESENT: None

K. Wardynski called the meeting to order at 8:20 a.m.

Moved by D. Bishop supported by K. Wardynski to approve the March 18, 2015 committee minutes as presented. Motion carried.

D. Kula started discussion of the recommended water rate increase from the DWS. The cost to Bangor Twp from the new Water Treatment Plant will increase by \$0.32. D. Kula moved to submit the resolution to increase the water rate to the Bangor Township Board for approval at the next meeting. K. Wardynski supported and the motion carried with all in favor.

A discussion of Other Business led to the frequency of the meetings. D. Bishop stated that they are usually held about 5 times a year or as necessary when funds become available for the next project. K. Wardynski confirmed that she has the prioritized list of projects and that the Columbian project is currently underway.

D. Bishop recommended putting future projects out to bid more often in an effort to save the Township more money. Dennis is meeting with Mark from Spicer's to assess that relationship and discuss some current projects.

Being no further business, the Public Works Committee Meeting adjourned at 8:32 a.m.

Submitted by,

Karie Wardynski
