

**NOTICE – START OF CONSTRUCTION ACTIVITIES**  
**NORTH BRANCH KAWKAWLIN RIVER**

Beginning on, or around June 9, 2018 – clean-up work will begin in the north branch of the Kawkawlin River. Approximate project limits will extend from the confluence of the north and south branches of the river - including possible activity at the Monitor Township Park - reaching just north of Beaver Road. Work will include debris removal, abandoned pipeline removal and potential bank stabilization efforts. The overall goal of this project will be to improve water quality and navigability, helping to promote recreational activities in the river. Construction activities are expected to be substantially completed by August 30, 2018. Residents and users of the river should use caution when spending time in this stretch of the river until activities are complete.
